Benefits

Control valves naturally add air to the mix producing a firm and dry ice cream having an overrun up to 40%

Communicates with the operator delivering instructions and data regarding machine performance

Prevents product stratification and help to reduce foam by maintaining a fluid consistency

One piece POM beater, easy to clean, for a firm and dry product. Ideal for frozen yogurt

The dispenser closes automatically stopping the flow of ice cream, eliminating any waste and preventing mess

Adjustable product flow to meet your specific dispensing speed and volume requirements

Optimizes refrigeration efficiency for fast freeze downtime, less waste of product ensuring higher quality and energy saving

Possibility to heat the cylinder to simplify the cleaning procedure
